# *Star of the Day*

She was amazing, she helped us with everything. She even went the extra mile to deliver my stuff if I couldn't come see her. She helped us right up until the last and gave us some excellent ideas and tips. She was wonderful to chat with and made us feel right at home, like we were old friends. She got to know us so well that she was able to get our style exactly the way we envisioned it. What an amazing girl. I think that she will go far with her wonderful and eager to help personality. We wish her well.
